

**Instructions for Printing the
Western Riverside Multiple Species
Habitat Conservation Plan
Biological Opinion FWS-WRIV-870.19**

This is a large document of over 1,200 pages. The majority of the document can be printed on 8-1/2" by 11" paper. However, there are several pages of tables and appendices (listed below) that are "Landscape" format and will require 11" by 17" paper.

- ✓ Table 4. Generalize Effects on Vegetation Communities within the Action Area
- ✓ Table 9. Potential Direct Effects of the MSHCP on Known Vernal Pools
- ✓ Figure 1. USFWS Conceptual Reserve Design of the Western Riverside County MSHCP Conservation Area (color map)
- ✓ Appendix 1. County of Riverside letter - the last two pages which are color maps.
- ✓ Appendix 6. Summary of Modeled Habitat for Each Species by NEPSSA Region.
- ✓ Appendix 7a. Summary of Modeled Habitat for Each Species by CASSA Region.

DO NOT attempt to print these pages if your printer will not process 11" by 17" paper.
